World Attacks Bill Gates, Want Him To Face Crimes Against Humanity: Blame Him For Coronavirus Pandemic – We Won't Consent To Your Depopulation Agenda And We Won't Allow You Vaccines...

Published 1 day ago on April 13, 2020
By Grapevine News

Different people across the world have stormed the Instagram account of Microsoft Founder Bill Gates blaming him for conspiring to escalate the Coronavirus pandemic so that he sells his vaccines.

It should be remembered that Gates, who first announced to the world that a dangerous pandemic will soon attack the world during a 2015 Ted Talk told Fox News last week that the countries should be on lockdown until most people are vaccinated.

His wife Melinda Gates said the world is likely to be permanently changed by the coronavirus pandemic and is likely to be the first of many in our lifetimes.

While speaking on CNN Melinda Gates also warned that if the world does not act fast enough, then there will be dead bodies all over the streets of Africa.

"It's going to be horrible in the developing world. Part of the reasons you are seeing the case numbers still do not look very bad, is because they don't have access to many tests. Look at what is happening in Ecuador, they are putting bodies out on the streets, you are going to see that in countries in Africa," Mrs. Gates noted.

Gates and her husband Bill chair the Bill & Melinda Gates Foundation which has already donated more than \$45 billion towards vaccination research in the hope of tackling pandemics including coronavirus.

Already, 150,000 people across the world had collected signatures against Gates' vaccine. However, the petition was allegedly wiped away.

Here are some of the comments from the world (more on his Instagram page @thisisbillgates):

mspfy @thisisbillgates we all know what you're up to and we don't consent what you have planned for the human race. If you try to force it on us, you'll realise no amount of military presence can stop 7 billion people from tearing you and your corrupt organisations in half.

 mamafeebz 🇺🇸 Bill Gates live on CNN, "we need lots and lots of testing."
🇺🇸 Who's behind the tests? The WHO, ((World Health Organization)).
🇺🇸 Who helps fund the WHO? The Gates organization
🇺🇸 Who's behind the pandemic documentary on Netflix? Bill Gates
🇺🇸 Who has the patent for the coronavirus? The Gates organization 🇺🇸 In October 2019, who ran a mock high-level pandemic exercise that eerily resembles the Coronavirus at The Johns Hopkins Center? The Bill and Melinda Gates Foundation. (Event 201) and passed out stuffed coronavirus toys for attendees. 🇺🇸 Who heavily funds vaccines all over the globe? Bill Gates 🇺🇸 Who has no medical background or training? Bill Gates
🇺🇸 If you get tested for coronavirus then they have your DNA and as we learned who wants virtually as many people as possible to be tested? Bill Gates
🇺🇸 What has a 98.8% recovery rate? The Coronavirus
🇺🇸 What did China use to recover from the Coronavirus? High doses of Vitamin C through IV

comicsforryou globalfreedomforall Telling this man what we think about his vaccines, chip or 5g is not doing anything for us. We need to post these comments over and over again where they will make the biggest impact such as presidential press conferences, petitions, letters and use ALL social media platforms to let them know that we do NOT CONSENT and that we WILL put up a fight! These comments restore my faith in humanity (you guys give me life) but we need to post them everywhere with a large audience. We need to inform the people that have been indoctrinated and help them wake up (they literally don't know where to find the truth because that is not in the media)! It is our duty, obligation and responsibility to show them! Freedom over one's physical person is the most basic freedom and it WILL be taken away from us if we don't FIGHT HARD. Imagine what they will do next if we allow them to have control over our body. What kind of world are we leaving for our children? What will you tell your grandchildren when they ask you what YOU were doing when our rights were being stripped from us? Our physical health and global freedom is in danger!!! We will not be controlled, silenced or lied to. We will not back down! UNITED WE STAND!!

ty_watchman86 The world is being prepared for the revealing of the antichrist and the mark of the beast. Jesus Christ is coming soon in an event called the rapture to remove His church before the great tribulation, which is a period of 7 years, also known as the time of Jacob's trouble. These 7 years will be the worst time ever in human history past, present, or future. The rapture (Jesus Christ removing His faithful followers from the earth) is imminent and will occur without warning and the elites will blame an alien invasion. Repent of your sins and forsake them. Come to God believing in His son Jesus as your savior and be saved, forgiven, and cleansed (John 3:16, Romans 10:9-10, and Ephesians 2:8). Life is not going back to normal. Open your eyes and see that this is the end game. Worldwide martial law. This virus was man made. It's a calculated attack on humanity to bring about the new world order out of the chaos and ashes of this present world system. This is a manufactured crisis to strip people's rights from them and force an agenda. Look at id2020. Mandatory vaccines and microchips (666) for all humans scheduled to begin by October 1, 2020, funded by Bill Gates, Gavi, and Rockefeller Foundation. Jesus is the Way, the Truth, and the Life. Trust in Christ for eternal life. Maranatha 🙏🔥❤️

mihuela The greatest form of control is where you think you're free, when you're being fundamentally manipulated and dictated to. One form of dictatorship is being in a prison cell and you can see the bars and touch them. The other one is sitting in a prison cell but you can't see the bars but you think you're free. What the human race is suffering from is mass hypnosis. We are being hypnotized by people like this: newsreaders, politicians, teachers, lecturers. We are in a country and in a world that is being run by unbelievably sick people. The chasm between what we're told is going on, and what is really going on, is absolutely enormous.

monte_heather @lila_kealy bummer about your kid, but to put all of the blame on your child's disability on vaccines is a big of a stretch, no? Is genetic predisposition and basic biology not factored in at all? Very sad about your progeny, but we definitely don't "have the sickest children in history". Thanks to vaccines and medical advances we have very low child mortality. It's obvious you are disappointed in how your child's health turned out (as any mother would), and are searching fervently for something to place your blame on.

 i_hike_for_freedom @lindsycarmen I think yes they could be administered differently and not given to kids under 3. I just said that the fact that silent virus like herpes can kill a newborn via kiss instantly and have, vaccines have no place near babies. I do think some vaccines are probably more unhealthy. I had the basic ones decades ago and I am never sick. I was diagnosed with flu last year and had no symptoms. I kind of doubt that diagnosis a little. I do notice an uptick in sickness and some illnesses being more widespread. Cancers have definitely grown in numbers. Radiation

definitely grown in numbers. Radiation is likely a problem. As are environmental chemicals. I am pretty anti medicine honestly. And I'd really think about how vaccines should be given and which ones are good.

 **undyingendeavor** @toriavelen do you know how much is a microgram 🤔 it's .00001gm your numbers are still as insignificant as ever lmao you breathe in more of each of these substances in traffic or even passing by a construction site then you would by getting a vaccine. Yet, no one is poisoned or collapsing? And isn't give me the "well construction workers do have health issues" yeah because they're constantly exposed to this stuff and they ingest more then anyone else could in their lifetime. You threw a shit ton of numbers at me not knowing I already understood them

better than you ever could. And like I said, you shouldn't vaccinate your children at a young age, a good doctor would tell you it's recommended but sometimes it could complicate things so it's also recommend you wait a few months or a year depending on the vaccine. Again, the mercury and aluminum in vaccines isn't elemental mercury they're both compounds that your body can break down within days. Your comment is as ignorant as the rest.

There are millions of people who have it but don't get tested so they aren't included in total cases, yet if you die from it you're definitely going on the total death list. You seriously have less than a 1% chance of dying from it. The media's job is to make you feel scared so they can get your viewership more often and make more money. I definitely think vaccines should
start at about 3 yo. When you think
about viruses killing infants almost
immediately, (like a silent herpes virus
being passed via missing a baby) it's
definitely not a good idea to vax babies.
I agree with that. But that's not vaccines.
It's how we administer them. I wish more
than anything more people would be
cognizant of human contact and babies.
Because all it takes is one kiss from a
carrier of some viruses to kill a newborn.
And I wish hospitals would be respectful
of parents wishes and not force them
into decisions. Hospitals are nasty
places. I'm a proponent of midwives
and doulas. The gist is, changing
now modern medicine is used. Giving
parents freedom.
